Health and Safety

Health and Safety is of utmost importance to **Shinotech Engineering Nigeria Limited**, our customers and the telecommunications industry. Project Dynamics is committed to the prevention of injury and ill health at work. This is achieved through Quality Management Standards of 9001 :2008 and the monitoring and measurement of health and safety. **Shinotech Engineering Nigeria Limited** continuously improve its service by implementing the following health and safety objectives and targets:

- Full compliance with ISO 9001 : 2008 standard
- Continual Health and Safety improvement throughout the organization

It is the policy of **Shinotech Engineering Nigeria Limited** to:

- Provide and maintain safe:
Places of work and working environments
Plant, equipment and substances
Systems of work

Processes and products

- Ensure that health and safety risk assessment is carried out continually to include when new methods, processes, equipment or premises are being considered or planned to ensure that:
Hazards- noise, manual handling, electricity, work at heights etc are identified.
Suitable and sufficient control measures are put in place to minimize risks
- Ensure legal compliance including ongoing review to ensure we keep up to date with any and all legislative changes that may affect our activities
- Ensure consultation with employees on all matters and encouraging their active

SHINOTECH ENGINEERING NIGERIA LIMITED.

involvement with, and commitment to, the company's effort to raise and maintain the standards of health and safety in its business activities

- Provide adequate health and safety information, instruction and training, in particular on induction courses for managers, supervisors and employees to enable them to fulfil their responsibilities
- Provide adequate controls and training of suppliers, contractors and visitors providing appropriate advice regarding health and safety matters and any necessary precautions such as method statements, permits to work, emergency procedures to be followed when working on, or at a site
- Ensure that all emergency materials, fire precautions, firefighting, emergency evacuation, first aid equipment and supplies are adequate to meet the needs of the staff and routinely checked and maintained
- Ensure that all accidents or incidents are recorded, reported where necessary to the Health and Safety Authority, fully investigated and all steps necessary, so far as reasonably practicable, are taken to prevent a recurrence
- Provide, where necessary, appropriate personal protective equipment (PPE) and clothing to protect health and safety of employees.

We include in this, the activities of contractors and other visitors to our sites. On-going monitoring of safety performance by site inspectors, auditing, accident analysis, risk assessments as well as setting challenging safety objectives to meet 9001:2008m QMS requirements will be essential elements in achieving our aim of continual improvement.

The company management gives its full backing to this policy and support all who implement it and provide the necessary resources training, structures and procedures to implement this policy which is to be reviewed at least annually

Quality Policy

c) Minors can subscribe to the shares of the company provided there are atleast two other qualified persons.

d) A copy of Birth Certificate of every minor that is a subscriber issued by the National Population Commission or Data Page of International Passport must be attached.

e) Where a corporate body is a subscriber or nominates a director to the board for a fixed term, a board resolution to that effect must be attached. For a corporate body registered outside Nigeria, a copy of certificate of registration duly translated if not in English Language must in addition be provided.

f) The minimum share capital for a private company is N10,000 and N500,000 for a public company. Atleast 25 percent of the nominal share capital must be issued at all times. Please check the guidelines of other regulatory bodies for the capital requirements for companies operating in those sectors.

g) A company limited by guarantee should not be registered with a share capital. The Commission is also required by law to refer the memorandum to the Attorney General of the Federation for approval before registration.

h) Foreigners that are directors or subscribers using Nigerian addresses must attach copies of their residence permit. Other foreigners should use their residential addresses in their country of residence.

i) This form must be accompanied by duly signed and stamped copies of the memorandum and articles of association. Companies are required to adopt the applicable model articles in Table 'A' of CAMA. Any modification to the table must be highlighted and registered together with the memorandum.

j) A first director or subscriber can prepare or present the incorporation documents directly to the Commission for processing. The use of accredited professionals is no longer necessary provided all matters incidental to the registration are complied with.

k) All asterisked fields on the form are mandatory

SECTION D1: PARTICULARS OF SECRETARY (FIRM/CORPORATION)

SECTION E: Statutory Declaration of Compliance with the requirements of CAMA by a Legal Practitioner
